The Honorable Dow Constantine
King County Executive
401 5th Avenue Suite 800
Seattle, Washington 98104

Dear Executive Constantine:

In our capacity as your appointed stewards of the public investment in Safeco Field, we want you to know the Washington State Major League Baseball Stadium Public Facilities District (PFD) is diligently evaluating impacts of the proposed arena in Seattle.

Safeco Field is a \$500 million public asset. It is one of the finest ballparks in the country and is one of the top five visitor attractions in Washington State.

The PFD's responsibility is to protect the public investment in Safeco Field and to ensure the Seattle Mariners meet their lease obligations for maintenance and operations. Thus, we are evaluating the proposed arena through the lens of our obligation to protect the taxpayers' investment in Safeco Field by ensuring it remains a successful venue. To continue being successful, convenient access to the ballpark and parking must be a priority.

Despite substantial investments by the city, port and state in transportation projects, and on-going investments by the teams to manage event traffic, congestion remains a serious problem. In addition, more than 3,900 parking spaces have been lost since the ballpark opened.

The PFD looks forward to playing a constructive role in the arena discussions and in the EIS process, especially concerning parking, traffic and dual events.
